Summary

Full-Stack Software Engineer with hands-on experience building and deploying **end-to-end web applications** using modern front-end and back-end technologies (SaaS).

Skilled in **TypeScript, Angular, React, HTML, TailwindCSS, Node.js, C#, .NET**, with practical experience integrating **RESTful APIs, SQL/Entity Framework Core databases, and cloud services on Azure and AWS**.

Strong understanding of **UI/UX principles, responsive design, and cross-browser compatibility**, with experience connecting front-end interfaces to back-end APIs and cloud-hosted databases.

Experienced in fast-paced development environments, with strong **problem-solving, adaptability, and communication skills**.

Skills

Languages: JavaScript (ES6+), TypeScript, C#, HTML5, CSS3, SCSS, SQL

Frontend: React.js (Hooks, React Router, SPA), Next.js, Angular, Vite, Tailwind CSS, Bootstrap, Three.js

Backend: Node.js, Express.js, ASP.NET Core Web API, REST APIs, CORS, Middleware

Databases: MongoDB (Mongoose), MySQL, MsSQL, Entity Framework Core, AWS RDS

Cloud & DevOps: AWS (EC2, S3, RDS, IAM), Azure (App Service, SQL Database), Docker, Nginx, PM2, GitHub Actions (CI/CD), Certbot (HTTPS)

Auth & Security: JWT, Cookies, Bcrypt, Environment Configuration (.env)

Tools: Git, GitHub, Visual Studio Code, Microsoft Office

Practices: Responsive Web Design, Mobile-First, UX/UI Fundamentals, Unit/Integration Testing Awareness

Experience

Self-Directed Software Engineer, 01/2021 - Current

-- Leeds, UK

- Developed **8 personal and collaborative projects**, demonstrating strong skills in front-end and back-end development.
- Built a **full-stack SaaS web application**, implementing features such as authentication, database management, REST APIs, and responsive user interfaces.
- Technologies used: **React, Vite, Angular, SCSS, Tailwind CSS, Node.js, Express, C#, .NET, MySQL, MongoDB, HTML, CSS, JavaScript**.
- Designed and managed **cloud infrastructure and deployments** using **AWS (EC2, RDS, S3, IAM)** and **Azure**, ensuring secure and scalable application hosting.
- Implemented **CI/CD pipelines using GitHub Actions**, automating build, test, and deployment workflows.
- Configured **Nginx** as a reverse proxy, managed Node.js processes with **PM2**, and implemented HTTPS using **Certbot**.
- Practiced **version control with Git**, monitored production services, and maintained clear technical documentation.

- Applied **problem-solving, software design principles, and debugging skills** to deliver scalable and production-ready web applications.

Software Engineer(Frontend), 05/2023 - 12/2025

M Star Factory - Seoul, South Korea

- Developed Mezzanine Dermatology website from scratch in collaboration with another developer.
- Developed user-friendly website interfaces using HTML, CSS, and JavaScript for enhanced user experience.
- Implemented responsive web design principles to guarantee optimal viewing across various devices.
- Improved web design and usability through UX testing.

Airbnb Cohost, 03/2024 - 09/2024

Mithalia ltd - Leeds, UK

- Operated and managed a short-term rental property end-to-end, including guest communication, listings, and pricing
- Communicated with domestic and international guests to handle enquiries, bookings, and issue resolution
- Produced high-quality property photos and optimized listings to improve visibility and booking rates
- Promoted listings across multiple platforms to maximize occupancy
- Managed calendars, availability, and day-to-day operations independently

Military Security Specialist & Transport Operator, 11/2021 - 05/2023

South Korean Military - Siheung, Gyeonggi Province, South Korea

- Demonstrated discipline, reliability, and teamwork in a high-responsibility environment.
- Conducted security patrols, access control, and operational reporting.
- Operated and maintained transport vehicles for personnel, and equipment.
- Warned violators of rule infractions and escorted unauthorised people off-premises in line with company procedures.

Education

2025 University of Ulsan - South Korea

BSc (Hons) Naval Architecture & Ocean Engineering

[Degree] Graduate

- Completed a comprehensive engineering program focused on advanced mathematics, physics, mechanics, and systems analysis.
- Gained hands-on experience in structural design, CAD modelling, simulation, and computational analysis.
- Built strong expertise in fluid dynamics, thermodynamics, structural analysis, and control systems.
- Developed analytical thinking and data-driven problem-solving through engineering modelling and technical documentation.
