SUMMARY

Web Developer with hands-on experience building responsive, user-focused websites and supporting digital operations for small businesses. Skilled in HTML, CSS, JavaScript, and modern web tools, with a solid understanding of UI/UX principles and cross-browser compatibility. Experienced working in fast-paced environments, with a disciplined background and strong communication, problem-solving, and adaptability skills.

SKILLS

- HTML5, CSS3, JavaScript (ES6+)
- React.js (Hooks, Client-side Routing with React Router, useNavigate, useParams, SPA)
- Next.js, Vite (Modern Frontend Build Tools)
- Tailwind CSS, Bootstrap (Utility-First & Component-Based Styling)
- Responsive Web Design (Mobile-First, UX/UI Fundamentals)
- Three.js (Basic 3D Rendering & Animation)
- Node.js, Express.js (RESTful API Routing & Middleware, CORS Handling)
- REST APIs & API Integration
- Authentication & Authorization (JWT, Cookies, Bcrypt)
- MongoDB (Mongoose), MySQL (Relational Database Design, Queries, CRUD Operations)
- Docker (Containerised MySQL for Local Development)
- SaaS Application Development (End-to-End Personal Projects)

EXPERIENCE

Web Designer & Digital Operations Assistant, 12/2024 - Current

Mithalia ltd - Leeds, UK

- Maintained a responsive business website, emphasizing usability and layout design.
- Launched and managed social media presence for the company from scratch.
- Conducted website updates and digital improvements informed by user insights.
- Enhanced guest experience through effective Airbnb property setup and presentation.
- Facilitated customer communication across diverse online platforms.
- Engaged closely with directors in a fast-paced startup environment.

Front-End Developer, 05/2023 - 12/2025

M Star Factory - Seoul, South Korea

- Developed Mezzanine Dermatology website from scratch in collaboration with another developer.
- Developed user-friendly website interfaces using HTML, CSS, and JavaScript for enhanced user experience.
- Implemented responsive web design principles to guarantee optimal viewing across various devices.
- Improved web design and usability through UX testing.

E-Commerce & Consumer Electronics Technician, 02/2021 - 12/2025

Self-employed - Ulsan, South Korea

- Diagnosed, repaired, and refurbished consumer electronics, including smartphones, tablets, TVs, and computers.
- Tested devices to ensure quality, functionality, and performance prior to resale.
- Handled customer inquiries, refunds, and after-sales support through online platforms.
- Managed the inventory of refurbished devices and replacement parts.
- Gained hands-on experience with digital workflows, customer UX, and online payment systems.

Military Security Specialist & Transport Operator, 11/2021 - 05/2023

South Korean Military - Siheung, Gyeonggi Province, South Korea

- Demonstrated discipline, reliability, and teamwork in a high-responsibility environment.
- Conducted security patrols, access control, and operational reporting.
- Operated and maintained transport vehicles for personnel, and equipment.
- Warned violators of rule infractions and escorted unauthorised people off-premises in line with company procedures.

Temporary Construction Operative, 05/2021 - 08/2021

Dongyang Manpower Agency - Ulsan, South Korea

- Worked as part of site teams to meet deadlines in physically demanding environments.
- Followed health and safety procedures and site instructions accurately.
- Demonstrated reliability, punctuality, and a strong work ethic.

- Hosting & Deployment: AWS EC2 (Server Deployment & Hosting), AWS S3 (Static Asset Storage), AWS RDS (Managed Database Service), Netlify, Render, Nginx & HTTPS via Certbot
- PM2 (Node.js Process Management)
- Git & GitHub, GitHub Actions (CI/CD – Backend Experience)
- Environment Configuration & Secrets Management (.env, Development/Production)
- Website Performance & Optimisation (Basics)
- Testing & Debugging (Unit/Integration Awareness)
- Logical & Analytical Problem Solving
- Customer Communication & Team Collaboration
- Time Management, Independent Learning, Adaptability
- Visual Studio Code
- Microsoft Office (Word, Excel, PowerPoint)

EDUCATION

BSc (Hons) Naval Architecture & Ocean Engineering, 2025

University of Ulsan - South Korea

- Completed a comprehensive engineering program focused on advanced mathematics, physics, mechanics, and systems analysis.
- Gained hands-on experience in structural design, CAD modelling, simulation, and computational analysis.
- Built strong expertise in fluid dynamics, thermodynamics, structural analysis, and control systems.
- Developed analytical thinking and data-driven problem-solving through engineering modelling and technical documentation.
