Leeds - Right to work in the UK (no sponsorship required) • +44 7999 113978 • JSihyeon2001@gmail.com

SUMMARY

Full-Stack Software Engineer with hands-on experience building and deploying **end-to-end web applications** using modern front-end and back-end technologies (SaaS).

Skilled in **TypeScript, Angular, React, HTML, TailwindCSS, Node.js, C#, .NET**, with practical experience integrating **RESTful APIs, SQL/Entity Framework Core databases, and cloud services on Azure and AWS**.

Strong understanding of **UI/UX principles, responsive design, and cross-browser compatibility**, with experience connecting front-end interfaces to back-end APIs and cloud-hosted databases.

Experienced in fast-paced development environments, with strong **problem-solving, adaptability, and communication skills**.

EXPERIENCE

Self-Taught Full-Stack Software Engineer, 01/2021 - Current

(Present) - Leeds, UK

- Developed **8 personal and collaborative projects**, demonstrating strong skills in front-end and back-end development.
- Built a **full-stack SaaS web application**, implementing features such as authentication, database management, REST APIs, and responsive user interfaces.
- Technologies used: **React, Vite, Angular, SCSS, Tailwind CSS, Node.js, Express, C#, .NET, MySQL, MongoDB, HTML, CSS, JavaScript**.
- Designed and managed **cloud infrastructure and deployments** using **AWS (EC2, RDS, S3, IAM)** and **Azure**, ensuring secure and scalable application hosting.
- Implemented **CI/CD pipelines using GitHub Actions**, automating build, test, and deployment workflows.
- Configured **Nginx** as a reverse proxy, managed Node.js processes with **PM2**, and implemented HTTPS using **Certbot**.
- Practiced **version control with Git**, monitored production services, and maintained clear technical documentation.
- Applied **problem-solving, software design principles, and debugging skills** to deliver scalable and production-ready web applications.

Software Engineer(Frontend), 05/2023 - 12/2025

M Star Factory - Seoul, South Korea

- Developed Mezzanine Dermatology website from scratch in collaboration with another developer.
- Developed user-friendly website interfaces using HTML, CSS, and JavaScript for enhanced user experience.
- Implemented responsive web design principles to guarantee optimal viewing across various devices.
- Improved web design and usability through UX testing.

Airbnb Cohost, 03/2024 - 09/2024

Mithalia Ltd - Leeds, UK

- Operated and managed a short-term rental property end-to-end, including guest communication, listings, and pricing
- Communicated with domestic and international guests to handle enquiries, bookings, and issue resolution

PROJECTS

Portfolio: <https://jsihyeon.online>

Github: <https://github.com/wprkftlgus>

SKILLS

- HTML5, CSS3, JavaScript (ES6+)
- React.js (Hooks, Client-side Routing with React Router, useNavigate, useParams, SPA)
- Next.js, Vite (Modern Frontend Build Tools)
- Angular (Components, Services, HTTP Client, Basic Routing)
- SCSS, Tailwind CSS, Bootstrap (Utility-First & Component-Based Styling)
- **Hosting & Deployment:** AWS EC2 (Server Deployment & Hosting), AWS S3 (Static Asset Storage), AWS RDS (Managed Database Service), **Azure App Service / Azure SQL Database**, Netlify, Render, Nginx & HTTPS via Certbot
- Node.js, Express.js (RESTful API Routing & Middleware, CORS Handling)
- C# (.NET Fundamentals, OOP, Collections, LINQ Basics)
- ASP.NET Core Web API (Controllers, Routing, IActionResult, HTTP Verbs)
- REST APIs & API Integration
- Authentication & Authorization (JWT, Cookies, Bcrypt)
- MongoDB (Mongoose), MySQL (Relational Database Design, Queries, CRUD Operations)
- SaaS Application Development (End-to-End Personal Projects)
- PM2 (Node.js Process Management)
- Git & GitHub, GitHub Actions (CI/CD – Backend Experience)
- Responsive Web Design (Mobile-First, UX/UI Fundamentals)
- Three.js (Basic 3D Rendering & Animation)
- Docker (Containerised MySQL for Local Development)
- Environment Configuration & Secrets Management (.env, Development/Production)
- Website Performance & Optimisation (Basics)
- Testing & Debugging (Unit/Integration Awareness)
- Logical & Analytical Problem Solving
- Customer Communication & Team Collaboration

- Time Management, Independent Learning, Adaptability
- Visual Studio Code
- Microsoft Office (Word, Excel, PowerPoint)

South Korean Military - Siheung, Gyeonggi Province, South Korea

- Demonstrated discipline, reliability, and teamwork in a high-responsibility environment.
- Conducted security patrols, access control, and operational reporting.
- Operated and maintained transport vehicles for personnel, and equipment.
- Warned violators of rule infractions and escorted unauthorised people off-premises in line with company procedures.

BSc (Hons) Naval Architecture & Ocean Engineering, 2025

University of Ulsan - South Korea

[Degree] Graduate

- Completed a comprehensive engineering program focused on advanced mathematics, physics, mechanics, and systems analysis.
- Gained hands-on experience in structural design, CAD modelling, simulation, and computational analysis.
- Built strong expertise in fluid dynamics, thermodynamics, structural analysis, and control systems.
- Developed analytical thinking and data-driven problem-solving through engineering modelling and technical documentation.
